GIRISH KUMAR SAMAL

SOFTWARE ENGINEER INTERN

+91 6372855893 biswajitasamal8342@gmail.com LinkedIn Github

PROFILE

Computer Science & Engineering student with solid skills in Python, Java, and web development. Experienced in building real-world applications, AI-based assistants, and GUI systems using APIs, automation, and databases. Strong in problem-solving, quick to learn new technologies, and an effective team collaborator, seeking a Software Engineering Internship to contribute to impactful projects.

EDUCATION

2023 - 2027
Siksha 'O' Anusandhan University (ITER), Bhubaneswar

Bachelor of Technology in Computer Science
CGPA - 9.0

2021
Prabhujee English Medium School,Bhubaneswar

Class - XII (Senior Secondary)
Percentage - 90.3%

2019
Prabhujee English Medium School,Bhubaneswar

Class - X (Secondary)
Percentage - 93.6%

AREAS OF EXPERTISE

- **Languages :** Java, JavaScript (Intermediate), C++, HTML, CSS, Python
- **Development framework :** ReactJS, NodeJS
- **Databases :** MongoDB, MySQL
- **Cloud Platform :** Amazon Web Services (EC2, S3)
- **Other Skills :** Agile Methodologies, Docker, Postman APIs, Git, GitHub

ACCOMPLISHMENTS

MITO – Intelligent AI Voice Assistant
GitHub: Repository
Developed a desktop-based intelligent AI voice assistant using **Python, featuring real-time speech recognition, wake-word detection, and natural language interaction**. Built with a modular architecture separating frontend GUI and backend logic, supporting voice commands, automation tasks, and conversational AI. Integrated text-to-speech, emotion-aware responses, and scalable components for future AI and system-level enhancements.

SMARTBUY - Online Price Comparator Platform (Group Project)
Github: Repository
Developed a responsive web app to search products via text or image and compare real-time prices across multiple e-commerce platforms. Added price sorting, availability tracking, and redirection to official product pages. Built with **HTML, CSS, Tailwind, JavaScript, and Python (Flask)**, using **Web Scraping, REST APIs, AWS Cloud** for storage, and MongoDB for database management.

TECHNICAL PROFICIENCIES

- **Soft Skills:** Collaboration, Planning, Teamwork, Time Management, Leadership,Communication
- **Key Strengths:** Analytical Thinking, Logical Problem Solving,Fast Learner,Practical Implementation
- **Interests:** Writing, Music, Travelling, Exploring new UI/UX Design
